The Northern Pacific bond holders have passed resolutions of confidence in the road. What effect will this have on the price of the company's securi-ties, which are now almost worthless?

The railroad war still continues, and the original parties to it, the Baltimore and Ohio and the Pennsylvania companies, have been joined, so far as freight is concerned, by other roads, so that at the present time merchants in the West get their goods transported at unprecedentedly low rates.

John Mitchel, the Irish patriot, died March 20. He had just been elected a second time to the British parliament from Tipperary, parliament having, some four weeks since, refused him a sent in its body, on the ground that he had been banished from the country for rebellion. Mitchel was not a man to be greatly admired by anybody but his own countrymen. He did all he could in this country, during the late civil war, to render the rebellion of the Sonth successful, by editing a rapid south successful, by editing a rapid Sonthern paper at Richmond. But his labors for the emancipation of Ireland were undoubtedly sincere, even if not

The Palestine exploration is prosecuted with great vigor, and we shall soon know much more of the geography of that country than we do now. The exploration society has published its third statement recently. The territory covered by the society's operations includes Moab, Gilead and Bashan, or the eastern side of the Jordan. This the castern side of the Jordan. This statement is devoted to archaeological and botanical researches, conducted chiefly by Prot. John A. Paine. MEDICAL.

Dr. J. Walker's California Vinegar Bitters are a purely Veg-etable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Billous Diseases alleled success of VINEGAR BIT-

In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy func-tions of the digestive organs.

Fortify the body against dis-
